

CINDI

During the Fall AGU meeting in San Francisco, one of the UTD graduate students, Angeline Burell, appeared as our mascot android character “Cindi.” She appeared at the Exploration Station outreach program on Sunday afternoon meeting with families and teachers and signing autographs. She also appeared for a few hours at the NASA booth on Wednesday where she was interviewed for a NASA YouTube video. (See http://www.youtube.com/user/NASATElevision#p/u/12/4OGJrOx_jBU) Over 1300 copies of our educational comic books were distributed to teachers, students, and scientists during the meeting.

Photos of “Cindi” at AGU.
